

Our Children's Sunday School, classes utilize DIG IN curriculum. DIG IN is designed to create deeper Bible experiences for kids. DIG IN presents the Bible as real and relevant so kids can take ownership of their faith. DIG IN is not just information, it's about seeing kids transformed by a real relationship with Jesus and applying Scripture to their lives.

DIG IN uses one clear, kid-friendly Bible point each week to help kids grasp and remember what they've learned. Rather than hearing "I learned about Jesus' birth", you might hear "I learned that God does the impossible".

Each Sunday we are proud to provide families with "DIG-IN at Home". DIG-IN at Home contains a short summary of our weekly Sunday School lesson, age appropriate questions you can ask your child to help you start a discussion with your child regarding their Sunday School Bible story and fun activities you and your child can complete together during the week to help reinforce the Bible story your child learned in Sunday School.
